PROFILE

Frontend-focused developer with a strong eye for UI detail and a practical approach to building user-facing products. Experienced delivering production-ready web applications with React and Next.js, with an emphasis on clean component architecture, responsive layouts, and smooth user experiences. Comfortable working independently from concept through deployment, and experienced contributing to team projects under pressure.

TECHNICAL SKILLS

Core	React, Next.js, TypeScript, JavaScript (ES6+), HTML5
Styling	Tailwind CSS, CSS3, Responsive Design, UI/UX principles
Backend & DB	Node.js, Flask, Django, Supabase, Firebase, MongoDB
Mobile	Flutter (Dart)
Tools	Git, GitHub, REST APIs, Vercel, Railway
Other	Python, Machine Learning (Random Forest), Linux

PROJECTS

Infrava Systems - Multi-tenant commerce platform built for the African market - SaaS product with tenant management, theming, and commerce infrastructure

Stack: *Next.js, Supabase, TypeScript, Tailwind CSS*

[Live →](#) | [GitHub →](#)

Stack: *MongoDB, Express, React, Node.js (MERN)*

[GitHub →](#)

SoilWise - Mobile app helping farmers identify soil types and suitable crops using ML-driven recommendations

Stack: *Flutter, Python, Random Forest (scikit-learn)*

[GitHub →](#)

EXPERIENCE

Freelance Frontend Developer · Independent *2023 – Present*

- Designed and shipped production-ready web applications for clients, focusing on React and Next.js frontends
- Built and styled responsive UIs from scratch using Tailwind CSS with attention to cross-device consistency
- Managed full project lifecycle from requirements gathering through deployment on Vercel and Railway
- Implemented REST API integrations and authentication flows across multiple client projects

Hackathon Participant · Team Projects *2023 – 2024*

- Collaborated in cross-functional teams to design and ship software solutions under tight time constraints
- Led frontend implementation and UI refinement across multiple hackathon builds
- Coordinated using Git and GitHub, contributing to shared codebases with PR-based workflows

EDUCATION

Bachelor of Science in Information Technology *2022 – Present*

3rd Year, 2nd Semester Kabarak University · Kenya
